

Imagine water swishing at your feet on a sunny day. Have you ever felt this well my favorite place is at my beach house which is in Delaware. I like to go to my beach house because I can open my door walk down the steps jump high into the air and land right on the wonderful beach with the smell of the ocean as well I can take a small walk right to the boardwalk. I also can drive and race golf carts around the development.

In my beach house is a seventy inch flat screen tv and an Xbox one. There is also a pool near my house it has four different pools one is a whirlpool another is a diving board pool and the last two are just normal but it can still be fun especially with my friend Trae he is the funniest person I know in the world all we do is pranks to my family members it is hilarious another thing that we do that is fun is the pool. Me and him love to do all kinds of flips off them. We do a game called pig it is fun what you do is one person does a trick and the other person has to do it the same way, then it would be the other person's turn to do a trick.

Another way that my beach house is my favorite place to be is because there is an ocean right outside my house and you can go swimming. Me and my friend Trae love to do the superman in the wave. A superman is when a wave comes you turn and face the shore and put your hands and legs straight and you go flying through the water. It is a cool thing to do if you ever get a chance to go to the beach try it. It might seem scary at first but once you do it a couple times you'll get used to it and it will be fun. What I love to also do in the water is jump the waves. Also if you look in the distance there are always dolphins jumping but there are no sharks and if there were I would not go swimming any more.

Another way that my beach is my favorite place to be is because in about five minutes of walking left on the sand is the boardwalk and who doesn't like the boardwalk. At the boardwalk is multiple arcades which are filled with games. Also the boardwalk has mini games to win prizes and places to eat. My favorite place to eat is Grotto's. It's the best pizza place in the world. Well that's what I think. It has sauce and cheese swirled on the top of the pizza. It is really good.

This is all the reasons why this is my favorite place to be these are all my favorite reasons I love to be at my beach house. It's because of the amazing pizza, doing the superman when an enormous wave comes in the ocean. Or the great big boardwalk with a

whole bunch of stores and games and the big arcades that are filled with crazy cool arcade game its really fun.
